Project EER
12/17/2012

Note:

Product data must be copied to, not linked to order Line Items.
This is necessary to preserve attributes at the time the order is created
because attributes such as price, description, coupons etc. may change.

Constraints:

Every order must have a name, phone number, and at least one item.
Foreign Keys are ON DELETE RESTRICT

For delivery orders, the customer's contact information will be
copied to order. Customer will be able to change delivery address and contact
phone can.

COMPANYINFO and CPANELUSERS are only for the web application and
do not appear on EER.

To be determined:

Schema for credit card payment info.
